

# Technical Visit

## 3M Customer Technical Centre

24 August 2019 (Saturday) 10:00am to 12:00 noon

### Introduction

3M technology improves people's daily lives. As of the end of 2018, 3M global sales of more than 33 billion US dollars, nearly 93,000 employees connecting with customers around the world to develop business. 3M transportation plays an innovative role in efficiently building safer, comfortable, attractive, durable and environmentally responsible modes of transport—whether you're catching a train or flying at 35,000 feet. From surface protection to sealants, acoustic to weight management—even areas of conductivity and impact. 3M is always exploring new ways to help manufacturers, transporters and travellers achieve their goals, with solutions ranging from designs to daily operations to destinations.

3M has been committed to making roads as safe as possible for almost 80 years. The 3M HK Customer Technical Centre tour will present innovative roadway and vehicle solutions to many of the problems that drivers face, such as reduced visibility due to inclement weather, nighttime driving, and the hazards encountered in work zones. The existing and future technologies showcased help make the driving experience safer for everyone.
