

Site Visit

Central Kowloon Route – Yau Ma Tei West

Date and Time: 18 January 2020 (Saturday) 9:00 am to 11:30 am

Introduction

Central Kowloon Route (CKR) is a proposed dual 3-lane trunk road across central Kowloon linking the West Kowloon in the west and the proposed KTD in the east. It will connect the West Kowloon Highway at Yau Ma Tei Interchange with the road network at Kowloon Bay and the future Trunk Road T2 at KTD in order to fulfill the need for additional traffic capacity on the east-west road links across central Kowloon, particularly for coping with the new developments on its western and eastern sides.

Yau Ma Tei West (YMTW) is one of the eight contracts of CKR. The key works to be executed under this contract include:

- Construction of an approximately 250m long Depressed Road at the west tunnel portal of CKR;
- Construction of a Landscaped Deck structure above the west tunnel portal and Hoi Wan Road;
- Construction of an underground Ventilation Adit connecting the tunnel ventilation system with the Yau Ma Tei Ventilation Building;
- Construction of approach roads and slip roads, including seven number of bridges and other associated structures, connecting CKR with the existing road networks; etc.

Site Visit Itinerary

The participants would be furnished with a short briefing for the trip followed by a site walk introducing the project. The arrangement of site walk might vary subject to the site condition on the day of visit.

Registration

The number of participants is limited to **25**. Members wishing to join the site visit are requested to complete **ONLINE APPLICATION by 8 January 2020 noon**.
