

Site Visit to Hong Kong-Zhuhai-Macao Bridge Hong Kong Link Road, Section between Scenic Hill and Hong Kong Boundary Crossing Facilities (Contract No. HY/2011/09)

On 5 December 2015, CIHT organised a site visit to the construction site of Hong Kong-Zhuhai-Macao Bridge Hong Kong Link Road, Section between Scenic Hill and Hong Kong Boundary Crossing Facilities (Contract No. HY/2011/09). There are totally 30 persons joined the visit. The participants reached the Community Liaison Office of the site at 9:30am and meeting with the Public Relationship Team (PR) of the project. After that, the PR team gave a briefing regarding the scope of works, the progress of the project and presented with an impressive video to demonstrate the construction sequence for the bridge.

After the brief, all the participants were guided by the PR team to visit the site by boat. We have gone through all the land section, airport channel section, western water navigation channel section and western water section.

Engineers of the PR team explained the construction processes of segmental launching bridge, bore piles on sea, precast shell for the pile caps and the precast construction method for piers. They also explained the difficulties they have been encountered and the resolved solutions including the spans crossing navigation channel and Sha Lo Wan Headland.

Before leaving the site, our Chairman Alan Tam present a souvenir to the PR team to appreciate the arrangement of the site visit. The site visit ended with a group shooting session at 11:30am.
